

Learning Objectives:

1. Attendees will be able to discuss the implications of cross-jurisdictional practice, including what an interstate compact is (and one example of a compact).
2. Attendees will be able to describe PSYPACT and two things that it allows psychologists to do to ethically and legally practice according to regulations, and what the governing documents for PSYPACT are, and where to locate them.
3. Attendees will be able to explain the potential consequences of non-compliance with legal and ethical standards in telepsychology, including disciplinary actions, risk of enforcement, and other penalties (e.g., audits, investigations).
